

*J*ews for Jesus is one of hundreds of evangelical Christian missionary organizations that spend millions of dollars each year to convert Jews.

Despite any trappings of Jewish tradition utilized to mislead and entice...

**Their theology is
100% Christian.**

In fact, many of their leaders aren't Jewish. Both Jewish and Christian groups have denounced their tactics.

In the event that you are confused or confronted by these missionaries, the following Q&A is provided to help you and your children.

1. Q: Who do you think Jesus was?

A: According to most theologians and Jewish scholars, Jesus was a 1st Century Jew who claimed to be the Messiah and died without fulfilling the Messianic prophesies, including bringing universal peace.

2. Q: Doesn't the Jewish Bible prove that Jesus is the Messiah?

A: Actually, every one of the Biblical or rabbinic passages that missionaries bring as a proof that Jesus is the Messiah, have been, either mistranslated, misquoted, taken out of context or even fabricated. When analyzed carefully, Jewish Scriptures do not point to Jesus and in fact clearly disqualify him as the Jewish Messiah.

3. Q: Did you know that believing in Jesus is the most Jewish thing you can do?

A: According to Judaism, the Messiah will not be divine or eliminate the obligation to observe Torah. Jews believe in a monotheistic system of a non-corporeal God. By believing that Jesus is "co-equal to God the Father," Jews for Jesus have crossed an unbreachable chasm by accepting a belief idolatrous for Jews.

4. Q: How will you get forgiveness for your sins without Temple sacrifices?

A: Teshuvah is the means of rectifying our mistakes through a process of repentance that includes reflection, remorse and returning to God. Sacrificial offerings when practiced, only helped atone for unintentional transgressions. The prophets clearly taught that prayer and repentance are the main remedy for sin and suffice when there is no Temple.

5. Q: Did you know that Jesus can change your life and perform miracles?

A: No religion has a monopoly on life-changing experiences or claims to miracles. The Bible warns against relying on signs and wonders as proof that a person is a messenger of God. (Deut . Chapter 13)

6. Q: Did you know that you can be Jewish and Christian at the same time?

A: A "Jew for Jesus" is as absurd as a "Christian for Buddha" and as ridiculous as "kosher pork." The fact that some of the first Christians were Jews didn't make them right. Their movement died out within three centuries as the church became a Gentile institution.

7 *Q:Do you have a personal relationship with God?*

A: Every Jew has a personal relationship with God, since we all possess a divine Neshama (soul).

All we need to do is turn to God with a sincere heart and this will reawaken our intrinsic spiritual closeness to God. Prayer, Torah study and loving-kindness are the spiritual means to approach Him.

If you have been confused or confronted by Christian missionary groups like Jews for Jesus and need information beyond the scope of the Q&A provide in this brief pamphlet, **Jews for Judaism** is the Jewish community's resource that has the specialized experience and expertise to help you.
